**Response to Request for Information  
Bayonne Barrel and Drum**

- 1.a. Lilly Industries, Inc.
  - b. Corporation
  - c. Douglas W. Huemme  
Chairman, President and C.E.O.  
733 S. West Street  
Indianapolis, IN 46225
  - d. Lilly Industries, Inc. has the following subsidiaries:  
Lilly Jamestown, Inc.  
Lilly High Point, Inc.  
Lilly London, Inc.  
Mr. Douglas W. Huemme is the President of all of the subsidiaries.
  - e. Lilly Industries, Inc. Is the successor to Lilly Industrial Coatings, Inc.
  - f. Not applicable.
- 2.a. Lilly purchased reconditioned drums from Bayonne. Lilly also sent some empty drums to Bayonne for reconditioning and return to Lilly.
  - 2.a.i. Lilly purchased reconditioned drums from Bayonne to be used to ship Lilly product to Lilly customers. Lilly also sent empty used drums to Bayonne for reconditioning.
    - ii. None exist. It is unclear whether there ever were any contracts.
    - iii. Lilly is a manufacturer of industrial paints and coatings. Lilly-Paulsboro supplies these coatings primarily to the coil coating industry. Lilly-Paulsboro was constructed by Lilly in 1973 and began operations in mid-1973.
    - iv. Lilly Industries, Inc.  
1991 Nolte Drive  
Paulsboro, NJ 08066  
NJD067362087
  - 2.b.i. The attached document titled "Containers" is a log kept of container purchases for Lilly-Paulsboro from the startup of operations of Lilly-Paulsboro through the last entry for Bayonne which occurred in 1983. The only other documents that exist are the Bayonne

documents in USEPA's records.

- 2.b.ii. The container purchase log provided in response to Questions 2.b.i. includes that number of containers for each transaction.
- 2.b.iii. The container purchase log provided in response to Question 2.b.i. includes notations regarding container type for the containers purchased. Open head drums are noted as OH or sometimes as 17H. Closed head drums are noted as either CH or BT (for bung type). The third type of drum purchased was labeled as agitator.
- 2.b.iv. The transactions were for the purchase of reconditioned drums to be used by Lilly for the shipment of product to Lilly customers.
- 2.b.v. The transactions for which Lilly has documents were for the purchase of clean reconditioned drums. The documents in EPA's possession contain documents titled "Unloading Inspection". These documents appear to be for the inspection of used drums from Lilly. On some of the occasions when Bayonne delivered reconditioned drums to Lilly, the truck was loaded with any used empty drums that Lilly had onsite at that time. These drums were empty. Lilly's used drums were drained and at times scraped before they were sent to Bayonne for reconditioning. Bayonne's drivers would not take drums that were not empty. It was Lilly's understanding that the truck driver who was a member of the Teamsters Union would not handle anything but empty drums.
- 2.b.vi. The empty used drums that were sent to Bayonne from Lilly for reconditioning had previously contained raw materials such as non-chlorinated resins, solvents and additives, and Lilly intermediate and finished products. Lilly has no record of the transactions for any of the drums sent to Bayonne. Therefore, we cannot provide any analyses for the materials that had been contained in the drums. In any case, since all of Lilly's transactions with Bayonne occurred before there was a legal requirement to provide or keep MSDS, Lilly has no records of that type of information for the period. The only documents that exist are batch cards for the batches of paint produced. These cards list raw materials by a "code". The raw material codes have since been standardized within the corporation and the original code books have not yet been found. These batch cards cannot be translated with certainty, and without the code books provide no useful information. Lilly is still searching for the code books.
- 2.b.vii. Prior to the shipment of any drums to reconditioners, Lilly drained residual material from the drums. Some of the drums were scraped as well.
- 2.b.viii. The attached container purchase log is the only document found in Lilly's records.
- 2.b.ix. Mr Fred Bond, Mr. Joe Borland (deceased), Mr. James McFarland, Mr Joseph Allmond, Mr. Thomas Wharton, Mr. Herb Ferrell, Mr. Eric Leach, and Mr. Robert Zubec.
- 2.b.x. None were sent to Bayonne by means of a third party transporter.

5. Lilly objects to this request because the information sought is irrelevant to the issue of Lilly's ability "to pay for or perform a cleanup" if required. If EPA determines that Lilly is liable for conditions at the site, the availability of any insurance coverage will depend on the specific facts and allegations in the EPA's notice of liability letter and /or administrative order. At this time, any response by Lilly regarding potential insurance coverage or indemnification rights related to this site would be speculative.
6. There are none that Lilly is currently aware of.
